

Peter Oakley

Profile

I moved to Bussage in Autumn 1975 to take up a lecturing job at the then Mid-Gloucestershire Technical College, and have lived here ever since.

I joined the Parish Council in 2015, not knowing quite what to expect, but have found being able to help maintain and improve the Parish very rewarding.

My interests have been wide, but my energy has been particularly focused on footpaths, climate change and, more recently, nature recovery.
