

Sharon Humberstone

## Profile

I have lived in Chalford for 14 years, having previously lived in Gloucester, Rodborough and briefly in Cirencester. I am originally from London, but moved to Gloucestershire at the age of 7.

I am a huge sports fan, particularly football. I am a lifelong fan of Tottenham Hotspur and I attend almost all home matches. I love music, and regularly go to live concerts. I love quizzes and I really enjoy spending time with friends and family. I also like walking, although I prefer to do that on the flat, hills are not my thing!

My professional background is predominantly in customer service, mostly within financial services, but I also worked for both for a Housing Association and a utility provider. I joined the council to hopefully give something to the community and be able to help where I can.
